

How to grow your Auto Repair Business with a Business Loans

Today's small- to medium-sized business owners face more challenges than ever. No one understands this better than the **#1 Business Loans (1businessloans.com)**. Whether they own a brick-and-mortar location or are strictly digital, competition is stiffer and consumers are more fickle than ever.

Banks haven't made the situation any easier, cutting back on small business loans and making the application and approval process much more difficult. And that's why so many small business owners come to us. At **1 Business Loan (1businessloans.com)**, we've taken the small business loan process and simplified it.

For example, our application process takes minutes, not hours or days. It can be quickly completed online. We don't require collateral and we don't put a magnifying glass up to business owners who've had some financial difficulties in the past. Bad credit or no credit is not a problem.

Our approval process is extremely fast as well, because we realize that small business owners need to be able to make quick decisions in order to be able to take advantage of opportunities, keep costs down and stay ahead of their competition.

Speaking of keeping costs low, our interest rates and payment options do just that. We realize that business owners need flexibility and need to keep costs manageable, and we make it possible with excellent rates and flexible terms.

So if you've had problems with getting the banks to give you some help, don't get stressed, come to **1 Business Loans (1businessloans.com)**. Simply put, we're the easier, faster, better option for small business loans.

Tom and Vinnie are the owners of an auto repair shop in Hackensack, NJ. Well known around the area, they deliver excellent service at reasonable prices and have a steady flow of work. Last year they decided to expand their business and buy new equipment but, even though they've been in the area for over a dozen years...

They couldn't find a bank to loan them the money they needed, because of some credit problems that Vinnie had in the past, and because their cash flow was a little inconsistent. The fact is, banks these days are stricter than ever when it comes to small business loans.

Even though the guys had a solid history and positive numbers, they couldn't find a single bank that would work with them.

And that's why they came to us.

Here at **1 Business Loans (1businessloans.com)** we don't do things the way traditional banks do. The reason is simple; We're here to *help* small business owners, *not* make their lives miserable. We didn't make the guys jump through paperwork hoops to get the money they needed. In fact, we approved Vinnie and Guido's loan for \$50,000 in less than a week...

And we didn't ask for collateral of any kind. We also gave the guys the flexibility to pay us back on their own terms, at a very competitive interest rate. That allowed them to buy equipment and enlarge their shop, just the way they wanted.

At **#1 Business Loans (1businessloans.com)** we make getting small business loans easy and fast. Our high approval rates and flexible repayment terms are what small business owners need to expand, pay bills, purchase inventory and many other necessities. Today Vinnie and Tom are busier than ever, thanks to the 2 new car lifts and other equipment they bought with the loan we gave them.

We're **#1 Business Loans (1businessloans.com)**
